Soon afterward, a suave, slick young man from Havre de Grace, Md.—William Tydings—married Joseph Davis' daughter, Eleanor (1935).

Tydings was able to buy what he wanted, including a U.S. Senate seat. He was half of the firm of Tydings & Rosenberg and a member of the Senate Foreign Relations Committee which helped drain

 Around Havre de Grace, only a
 few Marylanders have yet learned
 the story of the Russian bribe which
 gave their beautiful state a young
 senator with strange ideas, but the
 talk has started. This promises to
 be the biggest story to rock Mary-
 land officialdom since George

If Maryland voters ever learn the
full truth about this nasty Russian

overlook treason and the birch-

either Moscow or the products of
treason.

WASHINGTON--When State Department employee Otto F. Otepka exposed communists in the department, U.S. Reds were powerful enough to get him fired (1963).

The Justice Department sat out to discredit Otepka by filing 13 charges against him--highly publicized on TV and in daily papers. Hardly any public was given when the Justice Department dropped 10 of the 13 charges!

(Remaining charges are based on fact Otepka furnished U.S. Senators with information about homosexuals and communists in the Department. Justice Department says Senators have no right to know such information.)

In those days our consuls warned American ladies of Mary's economic status that they were sure to be shaken up but Mary enjoyed it time and again in reminiscent mood. God knows how the steerage ladies endured it.

Elm Street is Tucson's Republican enclave. When Democrats are stumbling over the cotton and carrot furrows wheedling American nagmes and scattered Mexicans to vote for them in reverent memory of John F. Kennedy, not that they need persuasion, the Republicans are spreading the good word to the Elm Street set at \$100 a plate. The Democratic field hands of the Udall Empire don't use plates. For what?

WASHINGTON (WO)—Papa Joe never thought son Bobby Kennedy was smart enough as a lawyer to handle money! Although Joe imposed Bobby on the rest of America as "Attorney General" he forbade the adolescent cabinet member to handle money. He appointed Dick Donahue to look after Bobby's purse and interpret law to him. (Donahue statement on file at Councilor office.)

WASHINGTON --While U.S. sends more money to Poland, Czechoslovakia and other communist countries, it claims it hasn't enough to properly train troops going into combat in Viet Nam.

To whip this problem, a great military highway is under construction, with connections to Moscow on one end and connections to Viet Nam on the other. It crosses several Asian countries. Scheduled for completion in the near future, this highway will make possible the rapid movement of ammunition, guns, gun parts and other munitions to the Viet Cong.

It will be possible to move giant artillery pieces from the Skoda works of Europe to Viet Nam without loading them on a ship at any point.

The Councilor has in his possession official photographs made by the U.S. Corps of Engineers which prove that its men, experience and technology are being

NEW ORLEANS—One of Editor Stern's personal proteges in the U.S. State Department was Carl T. Rowan, a negro typist who permits a newspaper column to be circulated in his name.

Washington Observer says "Carl Rowan is a CIA stooge, according to information received by the Senate Internal Security Subcommittee; he is required to use certain stories written for him; in return he is guaranteed a \$50,000 year income regardless of how few newspapers subscribe to his column."
